

Hire & Consult

COMPANY PORTFOLIO

Hire and Consult was born on a stormy night when the celestial bodies in the Milky Way aligned themselves in a straight line. Yes we're fearless rebels with burning fire inside our hearts. We're digital original. We work hard & keep our feet grounded. We believe in facts and use them to tell the story of your brand.

OUR PHILOSOPHY

SIMPLE

The Psychology of Simplicity.

The human mind is lazy. We like things that are easy and stay away from things that require effort.

What we do?

Simplicity is our highest goal. We make things that are easily understood by everyone.

BEAUTIFUL

The Psychology of Beauty.

We're naturally attracted to beauty. We can't help it. It's in our nature. Beauty calms our mind and touches the heart.

What we do?

We make things on the screen look so beautiful, you will want to touch them, hug them and kiss them.

UNIQUE

The Psychology of Uniqueness.

Our brain acts as a filter and protects us from too much information. We only notice what's different and unique.

What we do?

We give you a touch of uniqueness that's mysterious and raise prospect's interest. We make you 'COOL'.

OUR PROCESS

WE CREATE DIGITAL EXPERIENCES

We are a bunch of crazy independent thinkers
who are very, very passionate about what we do.

We keep things simple. We believe that ideas are wandering spirits that catch hold of their medium. Analysis and Philosophy, Computer and Pencils, Rational and Emotional. Be it market analysis or telling stories with the magic of words and images. At Hire and Consult, we work with both minds to give you the best of both worlds. We believe in a world of possibilities, not opportunities. We believe in stars, planets, birds and the fishes.

A hand holding a silver pencil with a blue band, pointing at a calendar. The calendar has several colorful sticky notes (red, green, orange, blue) attached to it. The background is a blurred window with a view of a building.

BRANDING AS A TOTAL SENSORY EXPERIENCE.

We stimulate cognitive emotions through the five senses. These emotions build a very strong bond between your product and the consumer. Our simple and unique branding strategy triggers loyalty and an unbreakable lifelong relationship.
